

Closure Grid Guidelines

** Updated **

- Going forward, you will be assigned three Numeracy (Maths) and three Literacy (English) lessons each week.
- These will be slightly different activities than before, and will be more like lessons from school.
- For your other subjects, you can pick some activities from the Grid below to complete.
- This Grid will last for two weeks, so pick some activities for each day and mark them off as you complete them.
- A sample timetable is included if you would like to give some structure to your week. You do not have to stick to this - it's just a suggestion that might help!
